

Amplify Your Application

- ✓ Powerful document functionality
- ✓ Web, Mobile, Server, Desktop
- ✓ 30+ file formats
- ✓ Full control of your user experience
- ✓ Perfected for 20+ years

Embed & customize PDFTron SDK to rapidly amplify market appeal, revenue streams, and customer satisfaction.

Hundreds of features

- View & annotate documents
- Collaborate in real-time
- Automate document workflows
- Add document security & DRM
- Convert to PDF or PDF/A
- Form fill
- Edit & manipulate documents
- Parse & extract data
- Search
- Add digital signatures
- Redact information
- Optimize & compress

And much more...

PDFTron rendering technology was built from the ground up, and has been perfected over the past 20 years in the world's most demanding environments.

With rendering completely under our control, we can guarantee accuracy, reliability, and an optimal user experience.

‘Considering all aspects of performance, quality, and technical capability, there was no contest. PDFTron provided everything we needed to embed PDF viewing in our product, while retaining our application’s look and feel.

John Sperling
VP Product Management
Aras Corporation

One API for all platforms

iOS

Easy to integrate. Code samples, familiar package managers, and a Docker image make it easy to get up and running.

Consistent & predictable. Our core rendering engine has been perfected by 20 years of knowledge, innovation, and real-world testing.

Compliant. PDFTron complies with official standards for all the document types we support, including PDF and PDF/A ISO standards.

Best developer experience

Everything you need for an even better development experience - expert support from developers, deployment tools, and an active community.

Faster time-to-market

Embed & customize using your preferred development stack. Tools & documentation make it easy to launch quickly, while upgrades are seamless.

Complete UI flexibility

We've open-sourced our UI, giving you complete freedom to optimize UX and match your look & feel. You can also customize our slick out-of-the-box UI.

Future proof

Seamlessly add more features, file formats, and platforms as you grow. Plus, we invest millions in R&D, ensuring ongoing delivery of new innovations.

PDFTron provided us with an out-of-the-box solution that was easy to configure, while still being highly customizable. That meant quick and easy implementation, plus the ability to adjust to our end users' wants, and scale as needed. Accuracy and performance of the software was equally critical, as it would be used within a live environment. PDFTron proved to have both. In addition, their technical support was highly responsive and helpful, which was also a big plus.
